

PhD

Dr. rer. nat.

Your honorary title

PhD in Experimental Medicine *or* Clinical Immunology *or* Clinical Infectiology *or* many more

Dr. rer. nat. in Molecular Biomedicine

Awarded by

The Medical Faculty

The Faculty of Math and Science

Who cares?

Who dares? (No one. Oh wait, maybe your mum...)

Who can be your judges?

1. Your boss.

1. Your boss.

2. Someone from the same subject (see honorary title) but another institute and from outside the Medical Faculty (unless your boss is from outside the Medical Faculty; then #2 needs to be from the Medical Faculty.)

2. Someone else from Molecular Biomedicine, from the Faculty of Math and Natural Sciences (if your boss isn't)
3. Yet someone else from Molecular Biomedicine.
4. A guy from an unrelated subject. (The one who doesn't understand a single word of what you're talking about, yet doesn't have to pretend he would.)

3. Someone else.
4. Someone else.

At least 2 judges need to be member of the Faculty of Math and Natural Sciences.

How long does it take?

Until the bitter end. And then ≥ 6 more weeks to receive the referees' reports.

As long as your boss can milk you. Plus 4 weeks. At least.

What if I fake?

Pursue a career in politics! **As a Minister for Education...**

... or Defense. (Defending your thesis you can!)

Summa cum laude...

...if #1 to # 4 agree.

...requires a third written expert opinion = 4 more weeks of your life's time

Where can I find the details?

In concise...

...or wordy legalese

Whom to bother with questions?
